Governments & enterprise working to enable secure e-services.
The solution: An ecosystem that creates trust for access & transactions.

DRIVING ECONOMIC GROWTH & COST SAVINGS

DIGITAL TRANSACTIONS COST
20X less than phone
30X less than post

50 x LESS THAN IN-PERSON

SAFEGUARDING AGAINST FRAUD & POTENTIAL THREATS

IDENTITY FRAUD
Misuse of credentials accounts for **UP TO 25%** of entitlement spending

---

Improved Services, Stronger Security & Lower Costs Through the Power of Trusted Identity

CITIZEN ENROLLMENT

COMPATIBLE WITH ANY APPROACH YOU CHOOSE
Our solution is built on best practices and industry standards. In Europe there i s regulation for Electronic Identification and Trusted Services (eIDAS). The U.S. National Strategy for Trusted Identities in Cyberspace (NSTIC) is also driving global initiatives

ENROLLMENT ESSENTIALS
Elements of trusted identity include breeder documents, photos, demographic data, biometrics and digital signatures.

SECURE & INTUITIVE IDENTITY WORKFLOWS
Our solutions include highly intuitive workflows for vetting, adjudication and credential life cycle management. Role-based access provides strong protection for citizen identity data.

STANDARDS-BASED CREDENTIAL WORKFLOW

HIGHLY INTUITIVE USER INTERFACES TO MINIMIZE TRAINING NEEDS

SECURE ISSUANCE

CENTRAL ISSUANCE

DESKTOP ISSUANCE
Issue highly secure ID cards in multiple locations – efficiently and affordably.

High-volume central issuance operations provide efficiency and cost optimization.

INVENTORY MANAGEMENT & TRACKING

GOVERNMENT BUREAU
GOVERNMENT FACILITY

SECURE AUTHENTICATION FOR EMPLOYEES & SYSTEM OPERATORS

ID CARDS ARE PRODUCED AND ISSUED CENTRALLY – LOW COST, HIGH CONTROL

OVER-THE-AIR MOBILE ID ISSUANCE

**CITIZENS CAN ACQUIRE ID CARDS INSTANTLY AND IN A LOCATION NEAR THEM**

ISSUING PKI

ONE TRUSTED IDENTITY FOR ALL CITIZEN SERVICES
Citizens can use one trusted credential to access a wide range of services. Leveraging a single identity improves efficiency and reduces fraud.

NATIONAL ROOT PKI

SECURE ECOSYSTEMS BUILT ON TRUSTED IDENTITY
We can help you build a trusted ecosystem that leverages the power of encryption for data privacy and digital signing for transaction security.

ID VALIDATION/USE CASES

VALADATION SERVICES
